Dear Parents,

Again, thank you all for your support in regards to all of the issues arising from the COVID-19 Corona virus and your child's education.

Interim work packages that were prepared last week are available for collection at the front office.

More comprehensive learning programs are being prepared and you will be notified when these are available for collection or accessing online. This program of learning will be a continuation of what your child has been learning in class. We will also provide tips for supporting the teaching of your child at home. I am sure that those of you who have Internet will be being bombarded with home education offers. I can assure you that we are too! The Department of Education is providing us with advice tomorrow and we have not issued comprehensive packages as we wanted to be sure that we are doing what is best for your child learning at home. We also wanted to be sure that we weren't providing parents with programs that now cannot be accessed due to overload.

Please be assured that we will provide you with as much support as is possible.

Please advise me as to the extent to which you can access Internet OR if you would prefer paper as opposed to Online work packages OR a combination of Online / paper packages. Workbooks already purchased by you will form a part of the learning program. You need to consider if you have sufficient devices (computer, tablet, i-Pad) so that your child can productively access educational programs on a daily basis. Of course this will also depend on whether you have secondary students or a number of children. We would appreciate this advice as soon as possible so that the packages can be prepared for distribution.

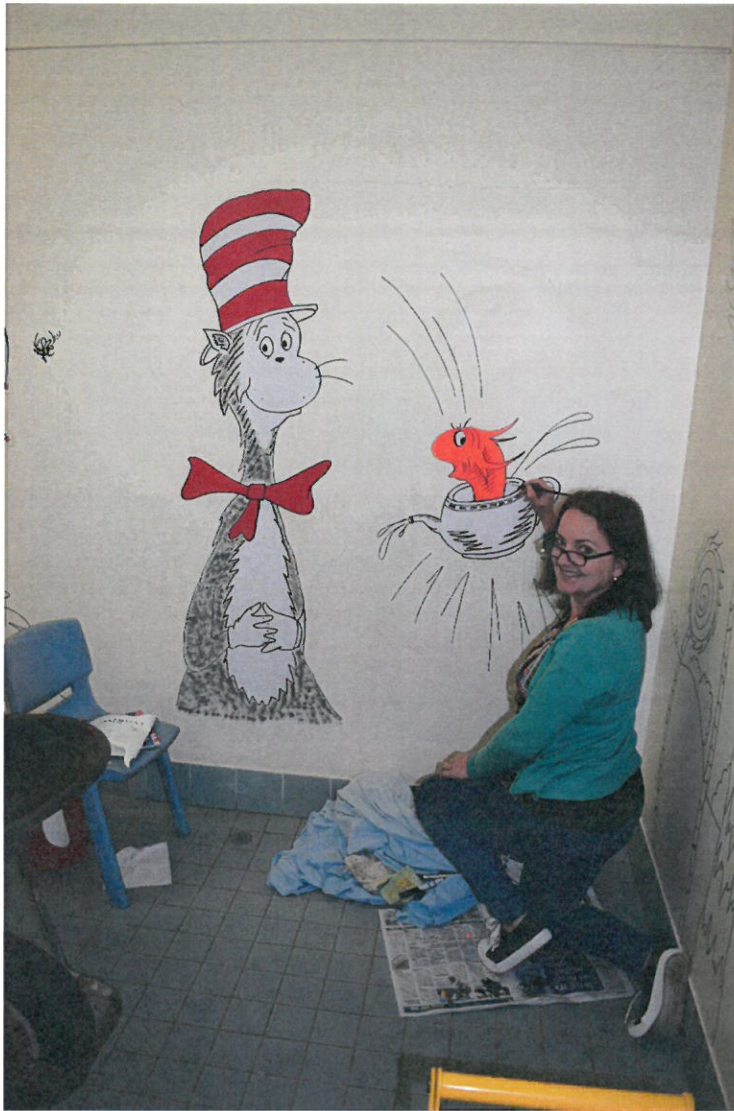

Please return any Library or reading books that you may have at home.

Please feel free to contact us at any time in regards to any of these matters.

Yours sincerely,

A handwritten signature in blue ink that reads 'Colleen Sing'.
