

Would you like more community services in your local area?

The Pinjarra Community Resource Centre is keen to hear what local members of the community would like to be able to access locally.

As the new Manager, Elaine Edwards is keen to strengthen community connections and understand how best to help community to grow.

Whilst we currently provide services to anyone in the community through our centre at Murray House in Pinjarra, **we would like to extend these services to the outer localities of the Shire of Murray.**

The frequency of services provided will be determined once we understand the level of need in your area.

So, no matter who you are in the community, we really want to know what you might access if the service was available to you. Services will be confidential as required.

Please complete the questionnaire over the page – tick as many choices that you think apply to you.

Return your form to the collection point located at your local post office or primary school.

If you would like more information, call 9531 2298.

Be quick, responses will be collected no later than

Monday 11th May 2020.

Please turn the page to complete

If services were made available to you in your location, which of the following would you access? Please tick as many that you think would be relevant to you.

Internet access for

- Email access
