RESPECT IS TO TREAT WITH CARE AND CONSIDERATION

Musical / Design & Technology

Students in years 4/5/6 have been learning about the different ‘families’ that comprise an orchestra ~ string, woodwind, brass and percussion. They then needed to use skills learned in Technology ~ (designing, engineering and artistic) to design a musical instrument. The design brief was to ‘make a musical instrument to entertain a classmate’. The design criteria were:

- They needed to identify their instrument as string, woodwind, brass or percussion.
- To produce a sound that can be used to play at least two notes.
- Be safe.

Left: Anika’s musical instrument met all of the design criteria. It is called “Drum” and it is a percussion instrument.

Right: Jacob’s instrument also met all of the design criteria. It is a string instrument.
